

May 22, 2020
Big Horn County
COVID-19 Update/Response

For Immediate Release

Big Horn County will reopen the Courthouse and other county buildings for public entry on a limited basis beginning Tuesday May 26th 2020. Many offices have installed plexiglass barriers to help reduce potential virus exposure for our customers and employees.

Customers coming to the courthouse will enter the building through the back (north) door only, there will be a quick health screening, traffic flow and social distancing markers will be placed in high traffic areas. We are requesting Customers who need access to the vaults, plat cabinets, or other areas that utilize smaller confined spaces or who are conducting a transaction that requires more than one individual (ie marriage licenses) phone ahead and make an appointment to help us manage traffic flow and facilitate social distancing.

The courthouse will continue to do business via mail, and the drop box. We encourage customers to use these options to conduct their business whenever possible and continue consistent social distancing.

Most other county buildings will also open following sanitation and social distancing as appropriate for the facility and traffic flows.

We realize these precautions are inconvenient and appreciate your patience while helping us do our part to keep our families and Community as safe and healthy as possible.
