INDEPENDENT AUDITORS REPORT

Honorable Board of County Commissioners
Big Horn County, Wyoming

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Big Horn County, Wyoming as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Big Horn County, Wyoming's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Big Horn County, Wyoming as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3-10, the Schedule of Proportionate Share of the Net Pension Liability Public Employees Retirement System of Wyoming on page 62, the Schedule of the County's Contributions on page 63 and the budgetary comparison information on 56-61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board*, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Big Horn County, Wyoming's basic financial statements. The combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, I have also issued my report dated November 10, 2018, on my consideration of the County's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Big Horn County, Wyoming's internal control over financial reporting and compliance.

James Reilly, CPA, P.C.
Certified Public Accountant

November 10, 2018

Management's Discussion and Analysis

- The assets of Big Horn County Government exceeded its liabilities at the close of the most recent fiscal year by \$59,232,609 (net position). Of this amount, \$5,787,132 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, Big Horn County Government's governmental funds reported combined ending fund balances of \$9,139,341, an increase of \$1,176,081 in comparison with the prior year. Approximately 81.81% of this total amount, or \$7,477,116 is *available for spending* at the government's discretion (unassigned - general fund balance).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$7,477,116 or 76.55% of total general fund expenditures.
- Big Horn County Government's total debt decreased by \$101,887. This decrease was comprised of an decrease in long-term debt of \$314,410 and an increase in net pension liability of \$212,523. The increase in net pension liability is due to the requirement for reporting under Governmental Accounting Standards Board (GASB) 68.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Big Horn County Government's basic financial statements. These basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements - The *government-wide financial statements* are designed to provide readers with a broad overview of the Big Horn County Government's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Big Horn County Government's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Big Horn County Government is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave.)

Both of the government-wide financial statements distinguish functions of the Big Horn County Government that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Big Horn County Government include general government, public

safety and transportation, public works, health, welfare and recreation, and conservation of natural resources.

The government-wide financial statements can be found on pages 11-14 of this report.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Big Horn County Government, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Big Horn County Government can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Big Horn County Government maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the county road construction fund and the airport fund all of which are considered to be major funds.

The Big Horn County Government adopts an annual appropriated budget for all its governmental funds. A budgetary comparison statement has been provided for all governmental funds to demonstrate compliance with their budgets.

The basic governmental fund financial statements can be found on pages 15 and 16 of this report.

Proprietary funds - The Big Horn County Government maintains two types of proprietary funds. Big Horn County Government uses an internal service fund to account for its Self-Insurance Fund. Because this service predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide statements. The Big Horn County Solid Waste District is a business-type propriety fund that accounts for the operations of the North Big Horn County landfill and the South Big Horn County transfer state. The financial statements for the District are discretely presented in this financial report.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

Individual fund data for the internal service fund is provided elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 18-23 of this report.

Fiduciary funds - Fiduciary funds (agency funds) are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of the funds are not available to support the Big Horn County Government's own programs. The accounting for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 24 of this report.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-55 of this report.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Big Horn County Government's progress in funding its obligation to provide pension benefits to its employees. This report contains the more comprehensive pension reporting standards required under GASB 68. Notes to financial statements regarding the retirement plan can be found on pages 46-52 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Big Horn County Government's net position, 87.94% reflects its investment in capital assets (e.g., land, buildings, machinery, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Big Horn County Government uses these capital assets to provide services to citizens; consequently these assets are not available for future spending.

Although the Big Horn County Government's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

BIG HORN COUNTY GOVERNMENT'S NET POSITION

	Governmental Activities	
	2018	2017
Assets:		
Current and other assets	\$ 14,574,621	\$ 13,691,851
Capital assets	55,137,728	56,493,840
Total assets	69,712,349	70,185,691
 Deferred Outflows of Resources	 1,570,149	 1,685,309
 Liabilities:		
Long-term liabilities outstanding	7,597,119	7,636,565
Other liabilities	1,083,326	1,556,351
Total liabilities	8,680,445	9,192,916
 Deferred Inflows of Resources	 3,369,444	 3,077,118
 Net position:		
Net investment in capital assets, net of related debt	52,090,985	52,936,795
Restricted	1,354,492	821,042
Unrestricted	5,787,132	5,843,128
Total net position	\$ 59,232,609	\$ 59,600,965

An additional portion of Big Horn County Government's net position \$1,354,492, 2.28% represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* \$5,787,132, 9.77% may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Big Horn County Government is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

There was an increase of \$533,450 in restricted net position reported in connection with the Big Horn County Government's County Road Construction Fund. This was due to road revenues received from gas tax, coal severance tax and interest earned exceeding road project expenses.

Big Horn County implemented a straight line method of depreciation on its fixed assets inventory for items over \$5,000, with a useful life of more than two years, to comply with GASB's reporting standards. Big Horn County is considered a Phase 3 reporting entity due to having annual revenues of less than \$10 million for FY 2002, the date of GASB 34 implementation.

BIG HORN COUNTY GOVERNMENT'S CHANGES IN NET POSITION

	<u>2018</u>	<u>2017</u>
Revenues:		
Program Revenues:		
Charges for services	\$ 2,442,733	\$ 2,262,606
Operating grants and contributions	305,874	539,677
Capital grants and contributions	551,739	1,265,323
General revenues:		
Property taxes - current and delinquent	2,402,235	2,532,468
Other taxes & intergovernmental revenues	6,617,532	5,296,411
Miscellaneous revenues	78,799	154,775
Unrestricted investment earnings	40,547	76,436
Total revenues	<u>12,439,459</u>	<u>12,127,696</u>
Expenses:		
General government	3,205,235	2,981,267
Public safety	4,904,907	4,368,762
Public works	3,325,183	2,507,715
Health, welfare, recreation	1,141,662	1,071,780
Conservation of natural resources	113,576	108,649
Interest on long term debt	117,252	104,517
Total expenses	<u>12,807,815</u>	<u>11,142,690</u>
Increase (decrease) in net assets	<u>(368,356)</u>	<u>985,006</u>
Net position, beginning of year	<u>59,600,965</u>	<u>58,615,959</u>
Net position, end of year	<u>\$ 59,232,609</u>	<u>\$ 59,600,965</u>

- Property taxes decreased by \$130,233 (5.14%) during the year. This is due to assessed valuation of the county decreasing between current and prior year.
- Operating and capital grants for governmental activities decreased by \$947,387, (52.49%) during the year.
- Charges for services increased by \$180,127 (7.96%) over the prior year.
- Expenditures increased by \$1,665,125 (14.94%) over the prior year.

Financial Analysis of the Government's Funds

As noted earlier, the Big Horn County Government uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds - The focus on the Big Horn County Government's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable resources*. Such information is useful in assessing the Big Horn County Government's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Big Horn County Government's governmental funds reported combined ending fund balances of \$9,139,341 an increase of \$1,176,081 in comparison with the prior year. Of this amount, \$7,622,671 is for unassigned cash reserve, \$162,178 is for inventory reserve which is non-spendable and \$1,354,492 is restricted for the capital project fund.

The general fund is the chief operating fund of the Big Horn County Government. At the end of the current fiscal year, unassigned fund balance of the general fund was \$7,477,116 while total fund balance was \$7,639,294. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 76.56% percent of total general fund expenditures, while total fund balance represents 78.22% of that amount.

Fund balance of Big Horn County Government's general fund increased by \$723,134 during the current fiscal year.

General Fund Budgetary Highlights

Difference between the original General Fund FY2017-2018 budget of \$10,686,712 and the final amended budget amounted to an increase of \$139,936 and can be summarized as follows:

General Fund:

Homeland Security Grant	\$ 100,210
Alcohol and Tobacco Inspection	3,000
EUDL Enforcing Underage Drinking	4,107
Hazardous Materials Emergency Projects	2,619
Bark Beetle Mitigations Project	30,000
Total Budget Amendments	<u>\$ 139,936</u>

The total budget amendments amounted to \$139,936 all from unanticipated revenues.

Capital Asset and Debt Administration

Capital assets - Big Horn County Government's net investment in capital assets for its governmental - type activities as of June 30, 2018, amounts to \$55,137,728. This net investment in capital assets included land, buildings, machinery and equipment, infrastructures, and roads, highways and bridges.

Major capital asset events during the current fiscal year included the following:

- Big Horn County continued the GASB 34 policy of depreciating their capital assets by using a capital asset system.
- Roads, highways and bridges, as listed by the County Engineer's office, are now included in Big Horn County's total assets.

BIG HORN COUNTY GOVERNMENT'S CAPITAL ASSETS

	<u>2018</u>	<u>2017</u>
Land	\$ 4,226,217	\$ 4,226,217
Construction in process	133,851	-
Buildings	11,269,858	11,538,843
Machinery and equipment	2,177,673	2,195,886
Infrastructure	<u>37,330,129</u>	<u>38,532,894</u>
TOTAL	<u>\$ 55,137,728</u>	<u>\$ 56,493,840</u>

Additional information on Big Horn County Government's capital assets can be found in the Notes to Financial Statements on pages 31 and 42-43.

Debt Administration

Primary Government:

	Balance June 30, 2017	Additions	Reductions	Balance June 30, 2017
Compensated absences	\$ 200,627	\$ -	\$ 4,737	\$ 195,890
Lease purchase obligations	572,648	-	140,976	431,672
Note payable - Avery hangar	328,769	-	23,697	305,072
Net pension liability	4,079,521	212,523	-	4,292,044
Jail bond lease	<u>2,455,000</u>	<u>-</u>	<u>145,000</u>	<u>2,310,000</u>
Total primary government	<u>\$ 7,636,565</u>	<u>\$ 212,523</u>	<u>\$ 314,410</u>	7,534,678
Less: current portion				<u>(319,658)</u>
Total long-term liabilities				<u>\$ 7,215,020</u>

Deferred Outflows of Resources & Deferred Inflows of Resources

Deferred Outflows of Resources

Deferred outflows of resources were new to the County's Statement of Net Position for the prior fiscal year. This classification balance, although similar to "assets," is set apart because these items do not meet the technical definition of being a County asset on the date of these financial

statements. In other words, these amounts are not available to pay liabilities in the way assets are available. When all the recognition criteria are met, the deferred outflow of resources will become an expense/expenditure.

The most significant deferred outflow of resources reported are related to the implementation of GASB Statement No. 68 and GASB Statement No. 71 for pension liability reporting. GASB 71 requires that contributions made during the fiscal year to the retirement system be reported as deferred outflows of resources. Consequently, the majority of the deferred outflows of resources reported are comprised of current year contributions to the retirement system. However, there may be some deferred outflows of resources attributable to the various components that impact pension changes, and can include investment changes amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

Deferred Inflows of Resources

Deferred inflows of resources are the counterpart to deferred outflows of resources on the Statement of Net Position. Deferred inflows of resources are not technically liabilities of the County as of the date of the financial statements. When all the recognition criteria are met, the deferred inflow of resources will become revenue or an increase to net position.

Deferred inflows of resources being reported on the County's Statement of Net Position include pensions.

- Deferred inflows of resources related to pensions represent a net amount attributable to the various components that impact pension changes, and can include investment changes amortization, changes due to actuarial assumptions, and differences between expected or actual experience.

Requests for Information

The financial report is designed to provide a general overview of the Big Horn County Government's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the County Clerk, 420 WC, Big Horn County, Basin, Wyoming, 82410.

BIG HORN COUNTY, WYOMING
Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2018

Amounts reported for governmental activities in the statement of activities (page 13) are different because:

Net change in fund balances - total governmental funds (page 16)	\$ 1,166,190
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(1,356,112)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(3,112)
The governmental funds report the purchase of inventory using the purchase method. However, in the statement of activities the change in inventory has been accounted for using the consumption method. This is the net effect of this difference in the treatment of inventory.	9,891
Internal service funds are used by management to charge the costs of health insurance to the individual funds. The net income (loss) of these activities of the internal service funds is reported with governmental activities.	(51,582)
Governmental funds report debt service principal payments as expenditures in the period paid. However, in the statement of activities these payments are not reported. This is net of current year proceeds of long term debt.	314,410
Change in accrued net pension liability	<u>(448,041)</u>
Change in net position of governmental activities (page 14)	<u>\$ (368,356)</u>

Notes to Financial Statements

The notes to the financial statements are included to provide information that is essential to a user's understanding of the financial statements.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of Big Horn County have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the *Governmental Accounting Standards Board (GASB)*.

A) Reporting Entity

The County (primary government) is a municipal corporation governed by three elected commissioners. The County provides the following services as authorized by statute: public safety, road and bridge maintenance and operation, health and social services, culture-recreation, public improvements, planning and zoning, and general administrative services. As required by generally accepted accounting principles, these financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the County's operations and so data from those units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the basic financial statements to emphasize that it is legally separate from the County. Each discretely presented component unit has a June 30 year end. The County has no blended component units.

Discretely Presented Component Units. The component units column in the basic financial statements include the financial data of the County's other component units. They are reported in a separate column to emphasize that they are legally separate from the County. The governing boards of all of these component units are appointed by the Board of County Commissioners.

- (1) The *Weed and Pest Control District* was established for the purpose of implementing and pursuing an effective program for the control of weeds and pests within the County. The District is fiscally dependent upon the county because the Board of Commissioners approve the District's budget and levy taxes (if necessary) on behalf of the District. The District is presented as a governmental fund type component unit. The District does not issue separate financial statements.
- (2) The *Byron Solid Waste District* maintains and manages the operations of a solid waste collection system for the residents and entities of North Big Horn County. The Byron Solid Waste District is fiscally dependent upon the County because the Board of Commissioners approve the District's budget, levy taxes (if necessary) and must approve any debt issuances. The District's taxes are levied under the taxing authority of the County. The Byron Solid Waste District is presented as a governmental fund type component unit. The Board does not issue separate financial statements.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A) Reporting Entity (cont.)

(3) The *Big Horn County Solid Waste District* manages the operations of the County's solid waste collection system for the residents of Big Horn County. The District is fiscally dependent upon the County because the Board of Commissioners approves the Districts budget, levies taxes (if necessary) and must approve debt issuances. The Big Horn County Solid Waste District is presented as a proprietary fund type component unit. The Board does not issue separate financial statements.

The accounting policies of Big Horn County conform to generally accepted accounting principles as applicable to governments. The following is a summary of the most significant policies:

B) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government and its governmental fund type component units. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

C) Measurement focus, basis of accounting, and financial statement presentation

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The County adopted GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local governments*, during the fiscal year ended June 30, 2004 and for all subsequent years. The adoption of this Statement is meant to present the information in a format more closely resembling that of the private sector and to provide the user with more managerial analysis regarding the financial results and the County's financial outlook.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C) Measurement focus, basis of accounting, and financial statement presentation (cont.)

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period.

For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *County Road Fund* which is used to account for the construction and maintenance of county roads.

The government reports the following nonmajor governmental funds:

The *Airport Fund* is used to manage the operations of the North and South Big Horn County airports.

The *County Library Fund* maintains and manages the operations of the County Library system. There is not a separate board managing the library fund.

The *County Fair Fund* maintains and manages the operations of the County Fair and conducts agricultural, industrial and other fairs and exhibitions within the County.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C) Measurement focus, basis of accounting, and financial statement presentation (cont.)

Additionally, the government reports the following fund types:

The *internal service fund* accounts for the financing of goods and services provided by one department to other departments or agencies of the County or to other governments, on a cost-reimbursement basis.

The *agency funds* are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The County follows GASB Statement No. 62, *Codification of Pre-November 30, 1989 FASB and AICPA Pronouncements* which eliminates any potential conflict between the application of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), Accounting Principles Board (APB) opinion, Accounting Research Bulletins issued on or before November 30, 1989 and GASB pronouncements, as all Pre-November 30, 1989 standards are now in the GASB's codification.

As a general rule the effect of inter-fund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments and donated capital assets. Internally dedicated resources are reported as *general revenues* rather than as *program revenues*. Likewise, general revenues include all taxes.

New Accounting Pronouncements

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* – an amendment to GASB No. 27, effective for periods beginning after June 15, 2014, enhances the decision-usefulness of information in employer and governmental non-employer contributing entity financial reports by required recognition of the entire net pension liability and a more comprehensive measure of pension expense.

C) Measurement focus, basis of accounting, and financial statement presentation (cont.)

GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, an amendment of GASB Statement No. 68, which is applicable to in concurrence with GASB Statement No. 68.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D) Assets, Liabilities, and Net Position or Equity

Deposits

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are stated at fair value. The County is allowed by Wyoming Statutes to invest idle cash primarily in U.S., state and local government securities and in accounts of institutions insured by the FDIC. Wyoming Statutes also require that all public funds on deposit be adequately covered by FDIC insurance and/or securities pledged by the depository. All investments made by the County during the year were within the statutory limits of the State of Wyoming. All funds on deposit at June 30, 2018 were adequately collateralized by the depositories.

Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*," and GASB Statement No. 65, "*Items Previously Reported as Assets and Liabilities*," the County recognizes deferred outflows and inflows of resources.

In a prior year, the County implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, effective for periods beginning after December 15, 2012, providing for financial reporting guidance to either (a) properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or (b) recognize certain items that were previously reported as assets and liabilities as outflows of resources or inflows of resources, based on the definitions of those elements in Concepts No. 4, *Elements of Financial Statements*.

Pensions

In general, the County recognizes a net pension liability, which represents the County's proportionate share of the excess of the total pension liability over the fiduciary net position of the pension reflected in the actuarial report provided by the Wyoming Retirement System (WRS). The net pension liability is measured as of December 31, 2017.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D) Assets, Liabilities, and Net Position or Equity (cont.)

Changes in the net pension liability are recorded, in the period incurred, as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective pension plan and are recorded as a component of pension expense beginning with the period in which they are incurred.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property taxes attach as an enforceable lien on property as of May 11. Taxes are levied on or about August 1 and payable in two installments on September 1 and March 1. The County bills and collects its own property taxes and also taxes for all municipalities and political subdivisions within the County. Collections and remittances of these taxes for other taxing districts are accounted for in the respective agency funds of the County.

County property tax revenues are recognized when levied to the extent that they result in current receivables, which means when collected within the period or expected to be collected within 60 days of the fiscal year end to be used to pay liabilities of the current period.

The County is permitted by Wyoming Statutes to levy taxes up to 13 mills of assessed valuation for all purposes, exclusive of state revenue, except for the payment of public debt and interest thereon. The combined tax rate to finance general governmental services other than the payment of principal and interest on long-term debt for the year ended June 30, 2018, was 12 mills, which means that the County has levied to the maximum amount available.

Inventory

Inventory is valued at cost using the first-in/first-out (FIFO) method. Inventory of governmental funds is recorded as an expenditure when purchased rather than when consumed (purchases method), within the fund level financial statements. On the other hand, the consumption method is used for reporting these inventories at the government-wide level.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D) Assets, Liabilities, and Net Position or Equity (cont.)

Restricted assets

Certain resources set aside are classified as restricted assets on the balance sheet because their use is limited by applicable restrictions imposed by the state of Wyoming. Revenues are restricted by the state for county road construction projects. The "capital projects fund (County Road Construction)" accounts for these restricted revenues.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental activities columns in the government-wide financials statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building Improvements	20
Public domain infrastructure	50
Equipment	10
Vehicles	5
Office equipment	7
Computer equipment	7

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D) Assets, Liabilities, and Net Position or Equity (cont.)

Compensated absences

At June 30, 2018, the County's policy in relation to vacation, sick pay, and other employee benefits is that any such amounts unused at the end of the fiscal year are accrued. Unused sick pay is paid at the end of the year earned as part of the County's wellness program. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-term liabilities

In the government-wide financial statement long-term debt, the net pension liability and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.

Fund equity

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the County Commissioners - the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Commissioners removes the specified use by taking the same type of action imposing the commitment.

Assigned fund balance – This classification reflects the amounts constrained by the County's "intent" to be used for specific purposes, but are neither restricted nor committed. County Commissioners have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as non-spendable and are neither restricted nor committed.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D) Assets, Liabilities, and Net Position or Equity (cont.)

Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the County's policy to use externally restricted resources first, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

Accounting estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the reporting period. Actual amounts could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental fund balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$7,534,678 difference are as follows:

Lease Purchase Obligations	\$ 431,672
Jail Bond Lease Obligation	2,310,000
Avery Hangar Loan	305,072
Net Pension Liability	4,292,044
Compensated Absences	<u>195,890</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	 <u><u>\$ 7,534,678</u></u>

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 2. RECONCILIATION OF GOVERNMENT- WIDE AND FUND FINANCIAL STATEMENTS (cont.)

A) Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

Another element of that reconciliation states that “long term assets are not available to pay current period expenditures and are deferred in the funds.” The details of this \$97,875 are as follows:

Deferred revenue (property taxes)	\$ <u>97,875</u>
Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	\$ <u><u>97,875</u></u>

The reconciliation states that the assets and liabilities of the internal service fund are included in the governmental activities statement of net position. The details of that \$1,601,543 are as follows:

Internal service fund assets	\$ 1,741,543
Internal service fund liabilities	<u>(140,000)</u>
Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	\$ <u><u>1,601,543</u></u>

Another element of the reconciliation states that deferred inflows of resources are reported in the Statement of Net Position. This consists of the deferred outflows of resources and deferred inflows of resources as part of the net pension liability calculation as follows:

Deferred outflows of resources	\$ 1,570,149
Deferred inflows of resources	<u>(779,350)</u>
Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	\$ <u><u>790,799</u></u>

B) Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net position of governmental activities* as reported in

BIG HORN COUNTY, WYOMING
Notes to Financial Statements

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

B) Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (cont.)

the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. The details of this \$(1,356,112) difference are as follows:

Capital Outlay	\$ 1,140,804
Depreciation expense	<u>(2,496,916)</u>
Net adjustment to increase net change in <i>fund balance - total governmental funds</i> to arrive at changes in net assets of governmental activities.	<u>\$ (1,356,112)</u>

Another element of that reconciliation states "The net effect of certain activities of the internal service fund to increase net position." The details of this \$(51,582) difference are as follows

Internal Service Fund (Self Insurance Fund):	
Charges for services	\$ 2,397,719
Insurance costs	(2,454,084)
Interest income	<u>4,783</u>
Net adjustment to increase net change in <i>fund balance - total governmental funds</i> to arrive at changes in net assets of governmental activities.	<u>\$ (51,582)</u>

Another element of that reconciliation states that "governmental funds report the purchase of inventory using the purchase method, however, in the statement of activities the change in inventory has been accounted for using the consumption method." The details of this \$9,981 are as follows:

Inventory as of June 30, 2017	\$ 152,287
Inventory as of June 30, 2018	<u>162,178</u>
Net adjustment to decrease net change in <i>fund balance - total governmental funds</i> to arrive at changes in net assets of governmental activities.	<u>\$ 9,891</u>

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

B) Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (cont.)

Another element of that reconciliation states that “governmental funds report debt service payments as expenditures in the period paid, however, in the statement of activities these payments are not reported.” The details of that \$314,410 are as follows:

Lease purchase obligations	\$ 140,976
Avery hangar loan	23,697
Jail bond lease principal payments	145,000
Change in compensated absences	<u>4,737</u>
Net adjustment to decrease net change in <i>fund balance - total governmental funds</i> to arrive at changes in net assets of governmental activities.	<u>\$ 314,410</u>

Another element of that reconciliation states revenues reported in the statement of activities do not provide current financial resources and are reported as deferred revenue in the governmental funds. The details of that \$(3,112) are as follows:

Change in deferred property tax revenue	\$ <u>(3,112)</u>
Net adjustment to decrease net change in <i>fund balance - total governmental funds</i> to arrive at changes in net assets of governmental activities.	<u>\$ (3,112)</u>

NOTE 3. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A) Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) Prior to May 15, the County Clerk submits to the Board of County Commissioners a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 3. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

A) Budgets and Budgetary Accounting (cont.)

- (2) A public hearing is conducted no later than the third Monday or prior to the Second Monday of July to obtain public comments.
- (3) The budget is adopted on the Tuesday following the public hearing.
- (4) At the request of the County Clerk or upon its own motion after publication of notice, the Board of County Commissioners may by resolution transfer any unencumbered or unexpended appropriation balance or part thereof from one fund, department or account to another. Expenditures cannot exceed appropriations at the department level and any unexpended or unencumbered appropriations lapse at year end.
- (5) Formal legally adopted budgets are prepared as a management control device during the year for the General Fund, Special Revenue and Capital Project Funds.
- (6) Budgets for the General, Special Revenue and Capital Project Funds are adopted on a cash basis (Budgetary). Such basis is not consistent with generally accepted accounting principles (GAAP).

B) Budget amendments

During the 2018 fiscal year, it was necessary to amend the originally adopted budget. The following general fund departments and funds were amended through transfers between departments or funds, from cash reserves and or from unanticipated revenues:

General Fund:	
Homeland Security Grant	\$ 100,210
Alcohol and Tobacco Inspection	3,000
EUDL Enforcing Underage Drinking	4,107
Hazardous Materials Emergency Projects	2,619
Bark Beetle Mitigations Project	<u>30,000</u>
Total Budget Amendments	<u>\$ 139,936</u>

C) Encumbrances

The encumbrances of amounts for which goods or services may not have been received are not recorded by the County. These amounts are not considered material in any of the County's various funds.

NOTE 4. DETAILED NOTES ON ALL FUNDS

A) Deposits and Investments

Book value of cash deposits do not significantly differ from the bank balance. Depository balances and their insured or collateralized status at June 30, 2018 were as follows:

Primary Government:

FDIC Insured Coverage	\$ 750,000
Insured or collateralized by securities held by the County	<u>11,907,111</u>
Bank Balance at June 30, 2018	<u><u>\$ 12,657,111</u></u>

Discretely Presented Component Units

FDIC Insured Coverage	\$ 500,000
Insured or collateralized by securities held by the County	<u>574,464</u>
Bank Balance at June 30, 2018	<u><u>\$ 1,074,464</u></u>

Big Horn County utilizes a central treasury that is available for use by all funds. Each fund's portion of the central treasury is displayed on the balance sheet as "Cash and cash equivalents and investments".

Investment Policy

The County's general investment policy authorizes investments in

- A. United States treasury bills, notes or bonds;
- B. Bonds, notes, debentures, or any other obligation or securities issued or guaranteed by any federal government agency;
- C. Mortgage backed securities that are obligations of or guaranteed or insured issues of the United States or its agencies.
- D. A commingled fund of securities as allowed by State law, if the securities are held through a trust company of a bank authorized to do business in this State with the total capital of at least \$10,000,000;
- E. Certificates of deposits of savings or loan associations or banks that are authorized to do business in the State; and
- F. Any investments as authorized by Wyoming Statutes: 9-4-831.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

A) Deposits and Investments (cont.)

All securities purchased by and collateral on deposits of the County of Big Horn under this section shall be properly designated as an asset of the County and held in safekeeping by a third party custodian bank or third party custodian institution chartered by the United States government or the State of Wyoming, and no withdrawal of such securities shall be made from the safekeeping except by the Treasurer or Deputy Treasurer and evidenced by safekeeping receipts.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. To limit its exposure to custodial credit risk, County policy requires that all deposits and investments be fully insured or collateralized.

Investment maturities in general investments at June 30, 2018 are as follows:

	Fair Value	Investment Maturities (In Years)		
		Less Than 1	1-5	Greater Than 5
Investment type:				
Fixed Income	\$ 1,418,200	\$ 1,418,200	-	-
Total Investments	\$ 1,418,200	\$ 1,418,200	-	-

BIG HORN COUNTY, WYOMING
Notes to Financial Statements

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

A) *Deposits and Investments (cont.)*

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Values Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in an active market. This level includes common stocks, corporate bonds or mutual funds based on the closing price reported in the active market where the securities are traded.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical asset or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

FASB ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The County classifies assets and liabilities within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement of each individual asset and liability taken as a whole. Normal purchases and sales transactions are not included in the fair values by source table as they are not recorded at fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

- Fixed Income Bond Fund – the fair value of fixed income bond funds is based on quote market prices and is derived from the broker statements.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

A) Deposits and Investments (cont.)

The following tables set forth by level within the fair value hierarchy the County's assets at fair value as of June 30, 2018.

	<u>Cost</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Fixed Income Bond Fund \$	1,447,804	1,447,804	-	-	1,447,804

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. All of the U.S. government agency investments are rated AA+ by Standard and Poor's and AAA by Moody's.

B) Receivables

Receivables as of June 30, 2018 for the County's individual major funds and combined nonmajor funds, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General Fund</u>	<u>County Road</u>	<u>Nonmajor Funds</u>	<u>Total</u>
Receivables:				
Accounts receivable	\$ 413,566	\$ 34,469	\$ 1,854	\$ 449,889

E) Fund Balances

The County has implemented the provisions of GASB Statement Number 54, *Fund Balance Reporting and Governmental Fund Type Definitions* for the year ended June 30, 2018. Fund balance, reported in the County's individual major funds in the aggregate on the governmental funds balance sheet is subject to the following constraints:

	General	County Road	Nonmajor Funds	Total Govern- mental Funds
Non-spendable:				
Inventory	\$ 162,178	\$ -	\$ -	\$ 162,178
Restricted:				
Capital Projects	-	1,354,492	-	1,354,492
Unassigned	7,477,116	-	145,555	7,622,671
Total fund balances	\$ 7,639,294	\$ 1,354,492	\$ 145,555	\$ 9,139,341

F) Pensions

Plan Description

The Wyoming Retirement System (WRS) provides expert administration and responsible investment of Wyoming's public retirement and supplemental savings programs. Through WRS, the state's public employers can offer cost-effective retirement benefits that attract and retain highly qualified professionals. WRS has been a partner in building financial security for members and their families since 1953, when the Wyoming Teachers Retirement System (est. 1943) and the State Employees Retirement Association (est. 1949) merged.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

F) Pensions (cont.)

WRS has grown to encompass most non-federal public employees in Wyoming. WRS is administered by an 11-member board, which hires an executive director to oversee a staff of 40 employees. WRS consists of eight separate defined benefit pension plans, including: the Public Employee Plan; the Warden, Patrol and DCI Plan; two Paid Firefighter Plans; the Volunteer Firefighter & EMT Plan; the Air Guard Firefighter Plan; the Law Enforcement Plan and the Judicial Plan. The WRS 457 Deferred Compensation program and the State's Social Security 218 program are also administered by the Wyoming Retirement Board.

The active membership is comprised of employees from school districts, the University of Wyoming and community colleges, state and local government and various other political subdivisions. Any full-time or regular part-time employee of an employer as defined under W.S. 9-3-402(a)(vii). Members who join the State of Wyoming Retirement System by August 31, 2012 are in Tier 1, while members who join on or after September 1, 2012 are in Tier 2. For Tier 1 member: employee's average annual salary for the highest paid three continuous years of service. For Tier 2 member: employee's average annual salary for the highest paid five continuous years of service.

Summary of Benefits

- Pension: WRS Pension Plans provide a member a monthly payment for life once the member meets age, vesting and service qualifications. In general, the amount of this "defined benefit" is determined by a formula based on the member's salary, length of service and age at retirement.
- Personal Investments: WRS administers a Deferred Compensation 457 Plan, which is an elective supplemental savings plan. The 457 Plan is a type of "defined contribution" plan and is commonly understood as a 401(k) plan for the public sector. The 457 Plan is a tax-advantaged structure that allows each individual to decide how much to invest in working years to supplement other retirement benefits.
- Social Security: Most of WRS' members also participate in Social Security with the exception of paid firefighters and some police.

Eligibility for benefit

- Tier 1 members may retire upon normal retirement on the date he/she attains age 60 with four or more years of service while Tier 2 members may retire upon normal retirement on the date he/she attains age 65 with four or more years of service.
- All employees may also retire upon normal retirement on the date that the sum of the member's age and service is at least 85.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

F) Pensions (cont.)

- Tier 1 members are eligible for a reduced benefit at age 50 with four or more years of service and Tier 2 members are eligible for a reduced benefit at age 55 with four or more years of service.
- All members are eligible for a reduced benefit at any age with 25 or more years of service.
- Disability requires ten or more years of service with benefit earned as of the date of disability, payable immediately.
- Pre-retirement Death Benefit has no age or service requirement with a lump sum equal to two times the employee contributions with interest. If the employee is vested, the beneficiary can elect, in lieu of this lump sum, to receive a monthly annuity equal to the actuarial equivalent of the retirement benefit that would be due the employee.
- Cost-of-Living Improvements are prohibited under W.S. 9-3-454 unless the funded ration stays above 100% plus a margin for adverse experience throughout the life of the benefit change.

Vesting

- Any employee who has left employment with four or more years of service, and who has not withdrawn accumulated contributions, is eligible to receive the above benefit or can receive a lump-sum refund of employee contributions with interest. An employee who terminates with less than four years of service is only eligible for the lump-sum benefit.

Monthly benefit formula

- For Tier 1 member: 2.125% of employee's Final Average Salary for each year of credited service for the first 15 years of service credit plus 2.25% of Final Average Salary for any years of service credit exceeding 15 years.
- For Tier 2 member: 2.000% of employee's Final (5-year) Average Salary for each year of credited service. This amount is reduced by 5.0% per year that the employee is under age 60 for Tier 1 and under age 65 for Tier 2. However, members retiring with a combined age and service of at least 85 receive an unreduced benefit. Employees hired prior to July 1, 1981 may be entitled to benefits earned under a different formula.

Total number of members (employees) covered by benefit terms as of June 30, 2018:

- Retirees and Beneficiaries – 26,808
- Inactive, Nonretired Members – 23,281
- Active Members – 41,604
- Total – 91,693

Stand-Alone Statements

The PERS financial information is reported in the Wyoming Retirement System's *Comprehensive Annual Financial Report* for the fiscal year ended. It is available from the WRS at 6101 Yellowstone Road, Suite 500 Cheyenne, Wyoming 82002 (307) 777-7691.

CAFR information including WRS stand alone financial statements can be found on their web site at <http://retirement.state.wy.us/home/reports.html>

The latest actuarial valuation and experience study can be found at their website at <http://retirement.state.wy.us/employers/GASB.html>

Deferred Inflows and Outflows

At June 30, 2018, the County reported a liability of \$4,292,044 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all Pension Plan participants, actuarially determined. At December 31, 2017, the County's proportion was .127098100%, which was an decrease of 0.0017946% from its proportion measured as of December 31, 2016.

For the year ended June 30, 2018, the County recognized pension expense of \$448,041. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits. At June 30, 2018, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

F) Pensions (cont.)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on retirements plan investments	1,120,028	-
Changes in proportion and differences between County contributions and proportionate share of contributions	-	779,350
County contributions subsequent to the measurement date	360,121	-
	<u>\$ 1,570,149</u>	<u>\$ 779,350</u>

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes in net pension liability to be recognized in future periods in a systematic and rational manner.

\$360,121 reported as deferred outflows of resources related to pensions resulting from the County's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>
2019	\$ 49,450	\$ 93,982	\$ 3,141	\$ 55,759
2020	49,450	93,982	3,141	55,759
2021	-	93,982	3,141	55,759
2022	-	-	3,141	55,759
2023	-	-	-	57,516
	<u>\$ 98,900</u>	<u>\$ 281,946</u>	<u>\$ 12,564</u>	<u>\$ 280,552</u>

Changes in actuarial assumptions and methods: There were no changes in assumptions or other inputs that affected the measurement of the Total Pension Liability.

Changes in benefit terms: There have been no changes in benefit terms since the previous measurement date.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

F) Pensions (cont.)

Changes proportionate share: There were no changes between the measurement date of the collective Net Pension Liability and the employer's reporting date that are expected to have a significant effect on the employer's proportionate share of the NPL.

Actuarial Assumptions

The Total Pension Liability as of June 30, 2018, is based on the results of an actuarial valuation date of December 31, 2017. There were several significant assumptions and other inputs used to measure the Total Pension Liability. The actuarial assumptions used in the December 31, 2017 valuation were based on the results of the last actuarial experience study, dated January 1, 2017. Among those assumptions were the following:

General Wage Growth (including inflation)	4.25%-6.00%
Investment Return	7.75%
Price Inflation	3.25%
Post-Retirement Mortality	
- RP-2000 Combined Mortality Table, generational projected with Scale BB	

- Mortality assumptions among contributing members, terminated vested members, service retired members and beneficiaries based on RP 2000 Combined Employee and Annuitant Mortality Tables projected to 2017 with scale BB.
- Mortality assumptions among Disabled Retirees are based on RP 2000 Combined Employee and Annuitant Mortality Tables projected forward five years with scale BB.

Discount Rate

A Single Discount Rate of 7.00% was used to measure the total pension liability. This Single Discount Rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions and the employer contributions will be made at the current schedule contribution rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Target Allocations

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Cash	0.00%	0.4%
Fixed Income	20.00%	1.8%
Equity	45.00%	6.9%
Marketable Alternatives	17.50%	3.3%
Private Markets	17.50%	7.1%
Total	<u>100.00%</u>	

The figures in the above table were supplied by New England Pension Consultants (NEPC); the investment consulting firm to the Wyoming Retirement System.

Sensitivity Analysis

	1% Decrease 6.00%	Discount Rate 7.00%	1% Increase 8.00%
County's proportionate share of the net pension plan liability	\$ 6,486,950	\$ 4,292,044	\$ 2,461,524

In accordance with GASB Statement 68 regarding the disclosure of the sensitivity of the Net Pension Liability to changes in the discount rate, the above table presents the Net Pension Liability calculated using the discount rate of 7.00%, as well as what the Net Pension Liability would be if it were calculated using a discount rate that is 1.00% lower (6.00%) or 1.00% higher (8.00%) than the current rate.

G) Other Information

Risk Management

The government is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. During the year ended June 30, 2018 the Government contracted with various insurance companies for property insurance (including boiler and machinery), general liability insurance, professional insurance and vehicle insurance. The coverage under each type of insurance policy vary in amounts and deductibles. The Government has not had significant settlements exceeding insurance coverage in any of the past three fiscal years. The government has had no significant reductions in insurance coverage from coverage in the prior years.

BIG HORN COUNTY, WYOMING
Notes to Financial Statements
June 30, 2018

NOTE 4. DETAILED NOTES ON ALL FUNDS (cont.)

G) Other Information (cont.)

The Government pays into the State Worker's Compensation System a premium based on a rate per covered payroll. This rate is calculated based on accident history and administrative costs.

Employee Benefits Fund

The County provides medical related benefits to eligible employees through a self-insured plan, administered by a third party administrator. The costs of benefits paid, administrative fees, and reinsurance premiums are paid through an internal service fund maintained by the County. Claims payable at June 30, 2018 and 2017 including the third party administrator's estimate of claims incurred but not yet presented (IBNR) were:

<u>Year Ended</u>	<u>Beginning of Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Fiscal Year Liability</u>
June 30, 2018	\$ 120,000	\$ 2,031,477	\$ 2,011,477	\$ 140,000
June 30, 2017	\$ 127,571	\$ 1,291,494	\$ 1,299,065	\$ 120,000

Closure and Post-closure Care Liability

The EPA established closure and post-closure regulations for landfills operating after October, 1991. The Wyoming Department of Environmental quality (DEQ) is required to administer a program of compliance and assurances to provide for liabilities of landfill closings. Consequently, the landfills are recognizing in their long term debt, the costs (liability) for closure and post-closure costs related to the capacity of the landfill that has been utilized. The following estimates and determination of liability is based on engineer's estimates to close both North and South landfills. Construction on the transfer station for the South landfill has been completed in anticipation of closing the County's landfills. It is expected that the North transfer station will begin in future years.

The schedule for closure and post-closure costs of Big Horn County landfill (a component unit proprietary fund) are as follows:

South Big Horn County Landfill	Engineer's estimate to close \$ 2,400,000
North Big Horn County Landfill	1,700,000
TOTAL	\$ 4,100,000

BIG HORN COUNTY, WYOMING

NOTE 5. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

Pursuant to GASB Statement No. 63, “*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*,” and GASB Statement No. 65, “*Items Previously Reported as Assets and Liabilities*,” the County recognized deferred inflows of resources in the government-wide, governmental fund, and proprietary fund statements. These items are an acquisition of net position by the County that is applicable to a future reporting period. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. The County has one item that is reportable on the Government-wide Statement of Net Position which relates to outflows from changes in the net pension liability. Deferred outflows of resources that are reported in the proprietary funds are included in the Government-wide Statement of Net Position.

Deferred outflows of resources balances for the year ended June 30, 2018 were as follows:

Government-wide Deferred Outflows	
Governmental Activities	
Pensions	\$ 1,570,149
Total Governmental Activities	<u>1,570,149</u>
Business-type Activities	
Pensions	<u>45,809</u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commissioners
Big Horn County, Wyoming

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Big Horn County, Wyoming, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Big Horn County, Wyoming's basic financial statements and have issued my report thereon dated November 10, 2018.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered Big Horn County, Wyoming's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Big Horn County, Wyoming's internal control. Accordingly, I do not express an opinion on the effectiveness of Big Horn County, Wyoming's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. I did identify certain deficiencies in internal control, described in the accompanying schedule of findings that I consider to be significant deficiencies, see findings 2018-001 and 2018-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Big Horn County, Wyoming's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion.

The results of my tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings as items 2018-001 and 2018-002.

Big Horn County, Wyoming's Response to Findings

Big Horn County, Wyoming's response to the findings identified in my audit is described in the accompanying schedule of clients response to findings. Big Horn County, Wyoming's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Cody, Wyoming
November 10, 2018

BIG HORN COUNTY, WYOMING
Schedule of Findings
June 30, 2018

Findings - Significant Deficiencies:

2018-001:

Criteria: Segregation of duties is a primary aspect of internal control. Segregation of duties implies that one individual not be able to control or influence a transaction from initiation to posting and/or have access to both assets and the accounting records.

Condition: There are various functions in which segregation of duties are not maintained.

Effect: Adequate segregation of duties were not met due to the reason stated under "Cause" below. Big Horn County, Wyoming's accounting and reporting system did not have all necessary controls in place. This control deficiency is prevalent in organizations in small local governmental entities.

Cause: Segregation of duties was not met due to the small size of the entity and budget constraints that inhibit the hiring of adequate personnel to remedy this deficiency. It may not be feasible for them to maintain adequate segregation of duties due to these constraints.

2018-002:

Criteria: Auditing standards require the auditor to determine whether the entities' internal control system allows for the reliable reporting of financial data, including note disclosures, in accordance with generally accepted accounting principles (GAAP).

Condition: The internal control system of Big Horn County, Wyoming does not have the expertise to prepare financial statements which includes note disclosures in accordance with GAAP.

Effect: Big Horn County, Wyoming can approve financial statements, related disclosures, and adjusting entries, however, required presentation may not be properly evaluated. It may not be cost effective for Big Horn County, Wyoming to retain and train personnel to prepare GAAP financial statements. Management should be aware of and continue to evaluate the impact of this deficiency.

Cause: Changes in accounting and reporting standards require personnel to maintain proficiency with new accounting pronouncements. The required expertise would be cost prohibited.

BIG HORN COUNTY, WYOMING
Schedule of Clients Response to Findings
June 30, 2018

Finding 2018-001:

Contact Person: Lori Smallwood, County Clerk

Corrective Action Planned:

Although segregation may not be at the highest level due to the size of the organization, the Board of Commissioners and management takes very seriously the purpose of the entity and the necessary oversight to ensure it can continue to function in its capacity and for its purpose. This is continually evaluated and the Board of Commissioners strives to provide adequate oversight to minimize the possible effect of this item.

Effective date:

The procedures to minimize the lack of segregation of duties were existing at the time of audit. The Commissioners and management are aware of the condition, and continue to monitor and provide oversight controls over accounting functions.

Finding 2018-002:

Contact Person: Lori Smallwood, County Clerk

Corrective Action Planned:

It is not feasible to hire someone with the required level of expertise at this time; however, we will continue to evaluate this item.

Effective date:

The Commissioners will continue to consider and evaluate the necessity of this position.
